As the research says, creative play really is the language of childhood. No matter the topic covered, I have found that as long as the lesson involves a bit of art, role-playing, games, and some freedom of movement, students are engaged. In this lesson & Quiz Show style game, students get to answer through acting, drawing, imagining, and problem solving as a team. I hope that your students enjoy this activity, having serious fun learning building their growth mindset!
